FUTURE INTERFACES

RESEARCH JAM

A three-day online research jam exploring comics, AI, surveys and design as future interfaces for participation, reflection and knowledge-making.

Part of Berlin
Science Week 2026

SurveyLab

Human-Computer
Interaction

EVENT DATES

8. – 10. November 2026

A research jam for people curious about comics, AI, design and future interfaces. Join live talks, guided discussion and collaborative ideation across three online evenings.

SurveyLab

Bauhaus-Universität
Weimar

A three-day online research jam bringing together researchers, designers, technologists, students and independent practitioners to explore comics as future research interfaces.

Join short provocations, live discussion and collaborative ideation around Human-AI Interaction, survey design, visual methods and participatory research.

Selected ideas and outputs may be archived as open proceedings on Zenodo, with contributor consent.

RESEARCH HIGHLIGHTS

- Comics as research interfaces
- Human-AI Interaction methods
- Survey redesign & participation
- Open proceedings on Zenodo

YOUR AREA OF INTEREST

HCI, Human-AI Interaction, design research, comics, visual methods, survey design, AI, storytelling, prototyping, discussion and collective imagination.
